1

3 Channel ECG SE-300B:

One-touch operation,
12 leads simultaneous
acquisition, advanced
SEMIP algorithm,
3-channel report
printing, external
USB printer.

12 Channel ECG SE-12 Express

Touch screen, one-touch
operation, enhanced
weak signal detection,
comprehensive filters
& anti-noise technology.

12 Channel ECG SE-1010

Advanced SEMIP
algorithm, Frequency
spectrum cardiogram,
multi-format
reports
transferable
via Email.

6 Channel ECG SE-601C

Color TFT screen,
one-touch
operation,
enhanced weak
signal detection,
thermal printer
with 6-channel.

1 Channel ECG SE-1

Foldable LCD screen,
well-designed
membrane keypad,
complete filters,
built-in high resolution
thermal printer.

SMART VIEWER ECG Software

Support all EDAN ECGs
(except SE-1/100),
Bi-directional
communication
with ECGs, worklist
support, HL7 support.

+1 786-391-1012
954-371-7754

7766 NW 46St, Miami FL 33166.

2

Stress Test SE-12 Express

Touch screen, one-touch operation, enhanced weak signal detection, Stress test and treadmill included.

Central Monitoring System MMF-CMS

Complete solution for LAN, Wi-Fi or mixture networking, multi-display modes on dual or single display.

Patient Monitor iM50

Being lightweight and portable, iM50 can be a great choice for patient transport. Optional IBP and capnography

Patient Monitor Elite V8

Designed as a full modular monitor, elite V8 dedicates to provide comprehensive health-care solutions especially for critical divisions.

Patient Monitor iM80

Designed to benefit critical monitoring and anesthesia monitoring with a large touch screen on a pre-configured basis.

Patient Monitor M3

Portable and lightweight, large high resolution color TFT display, flexible configurations to meet different clinical needs.

3

Fetal Monitoring F6

Color TFT-LCD screen, display waveforms and numeric simultaneously, great waveform storage and playback, highly sensitive waterproof FHR transducer.

Holter System SE-2003

Light-weight recorder, 3/12-channel digital recording, real-time waveforms display on the recorder, pacemaker detection, up to 7 days recording.

Pulse Oximeter H100B

The H100B employs EDAN SpO2 technology which has the equivalent performance as the industry leaders'. Its pocket-size design makes it extremely suitable for spot-checks and ambulatories.

Pulse Oximeter H10

The H10 delivers fast, reliable oximetry tests in an extremely handy, pocket-size solution by combining the monitor and the sensor into one unit.

Ultrasonic Doppler Sonotrax II (Vascular)

Easy- to- use, compact design, interchangeable waterproof probe, high-fidelity sound effect, support waterproof probes for vascular usage.

Ultrasonic Doppler Sonotrax II (Fetal)

Easy- to- use, compact design, interchangeable waterproof probe, large backlight LCD display, accurate FHR detection with high-fidelity sound effect.

4

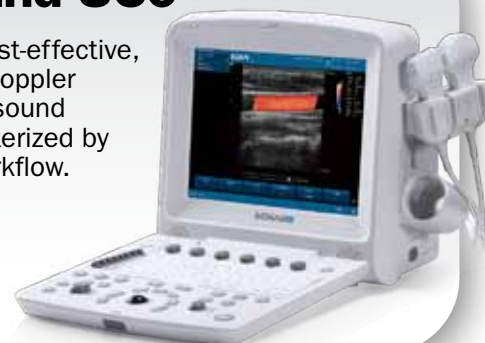

Ultrasound DUS60

The DUS 60 is a new compact ultrasound system providing superb value and best-in-class quality across a wide range of applications.

Ultrasound U50

The U50 is a cost-effective, portable color Doppler diagnostic ultrasound system. Characterized by user-friendly workflow.

Anesthesia workstations Morpheus M

The MORPHEUS M is a unit for anesthesia and it can be used on adult, children and newborn patients.

Portable ventilators Sirio Plus

The SIRIO PLUS is an extremely versatile ventilator which can be used, besides Ambulance, in other applications

Portable ventilators Sirio Plus MRI

An electronic ventilator ideal for the treatment of adult, children and newborn patients in Magnetic Resonance Imaging environment.

ICU ventilators Falco 202 EVO

Falco 202 EVO is a pressure and volume lung ventilator, designed for patients affected by chronic respiratory failure (CRF).

5

ICU ventilators Siaretron 4000

The SIARETRON 4000 is an intensive care ventilator for adults, children and newborns. It is a hi-tech volumetric and pressometric lung ventilator.

Infusion Pump DI-2000

Enabled to make operator's own IV set list in the software after calibration, Compact Design, lightweight, easy portable & safety proved, Improved Pumping unit – Accuracy improved

Infusion Pump DI-2200

Practical use in ICU, Two (2) separate CPU (Dual Channel), Save Space & (Economic), Enabled to make operator's own IV set list in the software after calibration.

Electro Surgical Unit Meditom 300

Multi-purpose electrosurgical unit for use in the modern operating room. It features both monopolar and bipolar functions.

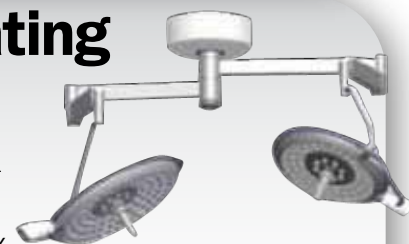

Electro Surgical Unit Meditom 400P

Multi-purpose electrosurgical unit for use in the modern operating room. It features both monopolar and bipolar functions.

LED Operating Lights Honey Lux

Max illumination
160,000/ 120,000 Lux
• 10 Steps of dimming range
• 4,300K of color temperature

6

Infant Care System Infant Warmer CBW-1100

- Phototherapy lamp
- X-ray cassette tray
- Tilting mattress
- Head part 90° to either side for X-ray
- Alarm function for safety

JW Medical

Infant Care System Infant Incubator CHS-I1000

- Double wall type
- Air wall (curtain) function
- Air/skin temperature sensor
- Humidification function
- X-ray cassette tray with weight scale

JW Medical

Infant Care System Infant LED Phototherapy JW-PU1000

- 2 White LED/ 8 blue LED
- Height adjustment from 1200 to 1700(mm)
- Housing tilting $\pm 35^\circ$
- Spectral Irradiance 60uW/cm²/nm at 40cm
- Set time from 30 to 240 min

JW Medical

Operating Table CHS-790

- Manual type operating table
- Height adjustment from 750 to 1000mm
- Table-top rotating 360°

JW Medical

Operating Table CHS-1500

- Electro-hydraulic multi-purpose operation table
- Height adjustment from 690 to 1,000mm
- C-ARM photography available to use
- X-Ray film cassette plate

JW Medical

Operating Table CHS-2500

- Longitudinal shift 300mm
- Height adjustment from 680 to 940mm
- C-ARM photography available to use
- X-Ray film cassette plate
- Wired remote controller

JW Medical

Operating Table JW-T7000

- Wired & Wireless remote controller (Separate backup switch)
- Loading capacity 270kg in all positions
- Longitudinal shift 400mm
- Minimum height of 600mm (Base height 150mm)
- Auto locking system with 4 swivel casters

jw Medical

Defibrillator AED i-PAD NF1200

Can be used by Lay Rescuer with phased voice guide, easy to carry (Light weight, Small), easy to manage, Especially in the Public

Access Defibrillation (PAD) setting.

Defibrillator Lifegain CU-HD1

Patient Monitoring (ECG, SpO2, NIBP, Pacer), convenient shortcut buttons and switch for using in hospital and emergency, data transmission using Bluetooth.

Defibrillator Paramedic CU-ER5

Defibrillation using external paddles and pads, Synchronized Cardioversion. ECG Monitoring mode (3,5 Lead ECG), AED.
